GH0STBUSTERS™

75827

WHO YOU GONNA CALL?

It was a brilliantly simple and crazy concept. Unleash an enormous supernatural power upon the city of New York, call upon the finest comedians in Hollywood, throw in some groundbreaking special effects and mix in a talented director to help give us one of Hollywood's classic movies. These were the building blocks of the 1984 smash hit movie *Ghostbusters*, and the world is still talking about it today.

Dr. Peter Venkman, Dr. Ray Stantz and Dr. Egon Spengler are researchers on paranormal activity, working at Columbia University, but their funding is cut since their research seems to be going nowhere. But when strange incidents involving spooks and specters begin to happen all over New York, the guys hit upon a great idea—to form a paranormal detection and elimination service called Ghostbusters.

To get around New York City they equip an old ambulance with all their gear and gadgets. This became the iconic Ecto-1! Their first assignment is to remove the glutinous apparition known as Slimer from the fancy Sedgewick Hotel Ballroom. After successfully completing the job—and destroying most of the beautiful room in the process—their reputation grows and their business really takes off. So much so that they hire their fourth member to join the Ghostbusters: Winston Zeddemore.

Their abilities are put to the ultimate test when the evil being Zuul opens a portal and lets the supreme evil Gozer into our world. Gozer takes the form of the giant Stay Puft Marshmallow Man and attacks the team. To defeat the giant and save New York they cross the streams of their proton packs (something Egon told them to never do) creating one incredibly powerful energy beam that shoots it back into the portal. The resulting explosion destroys both Gozer and the portal and saves New York City from imminent destruction... But leaves a large part of it covered in melted marshmallow.

QUI C'EST QU'ON APPELLE ?

Un concept fou et d'une brillante simplicité. Lâchez une énorme puissance surnaturelle sur la ville de New York, appelez les meilleurs comédiens d'Hollywood, ajoutez quelques effets spéciaux de pointe et un réalisateur de talent pour créer l'un des films classiques d'Hollywood. Voilà les éléments clés du film culte de 1984, *SOS Fantômes*, dont le monde parle encore aujourd'hui.

Dr Peter Venkman, Dr Ray Stantz et Dr Egon Spengler sont des chercheurs en phénomènes paranormaux travaillant à l'université Columbia de New York, mais leur financement leur est retiré car leurs recherches ne semblent mener nulle part. Lorsque d'étranges incidents impliquant des fantômes et des spectres commencent à se produire dans tout New York, les chercheurs ont une idée géniale : former un service de détection et d'élimination des phénomènes paranormaux, appelé SOS Fantômes.

Pour circuler dans New York, ils équipent une vieille ambulance avec tout leur matériel et leurs gadgets. C'est ainsi que naquit la célèbre Ecto-1 ! Leur première mission est de faire disparaître de l'élégante salle de bal de l'hôtel Sedgewick une apparition gluante appelée Bouffe-tout. Après avoir réussi leur mission, et pratiquement détruit la magnifique salle de bal au passage, leur réputation croît et leur entreprise démarre vraiment. Leur succès est tel qu'ils engagent un quatrième membre pour SOS Fantômes : Winston Zeddemore.

Leurs capacités subissent le test ultime lorsque la créature maléfique Zuul ouvre un portail et laisse entrer dans notre monde le mal suprême Gozer. Gozer prend la forme du Bibendum Chamallow géant et attaque l'équipe. Pour vaincre le géant et sauver New York, les membres de l'équipe croisent les rayons de leurs packs de proton (une chose qu'Egon leur a demandé de ne jamais faire), créant un rayon d'énergie surpuissant qui renvoie Gozer dans le portail. L'explosion qui en résulte détruit à la fois Gozer et le portail et sauve New York de la destruction imminente... Mais laisse une grande partie de la ville couverte de guimauve fondue.

¿A QUIÉN VAS A LLAMAR?

Era un concepto brillantemente sencillo y loco a la vez. Liberar un enorme poder sobrenatural bajo la ciudad de Nueva York, avisar a algunos de los mejores cómicos de Hollywood, agregar unos cuantos efectos especiales revolucionarios y mezclarlo todo con un director de talento para conseguir un clásico del cine. Así fue como nació *Cazafantasmas*, un éxito de 1984 del que aún hoy se habla en todo el mundo.

Los doctores Peter Venkman, Ray Stantz y Egon Spengler, investigadores de actividades paranormales en la Universidad de Columbia, ven interrumpidas sus subvenciones al no obtener resultados. Sin embargo, cuando comienzan a tener lugar extraños sucesos relacionados con fantasmas y espectros por todo Nueva York, los chicos tienen una gran idea: fundar un servicio de detección y eliminación paranormal llamado «Cazafantasmas».

Para moverse por la ciudad de Nueva York, equipan una antigua ambulancia con todas sus herramientas y artefactos. ¡El vehículo se convirtió así en el Ecto-1! Su primer trabajo es eliminar una glotona aparición conocida como «Pegajoso» del elegante salón de baile del hotel Sedgewick. Tras llevar a cabo con éxito la misión (y destruir la mayor parte del precioso salón en el proceso), su reputación crece y el negocio despega. Tanto es así que tienen que contratar al cuarto miembro de los Cazafantasmas: Winston Zeddemore.

Sus habilidades se ponen a prueba definitivamente cuando la malvada criatura Zuul abre un portal y permite a Gozer, el mal supremo, entrar en nuestro mundo. Gozer adopta la forma de un gigantesco hombre de malvavisco y ataca al equipo. Para derrotar al gigante y salvar Nueva York, cruzan los flujos de partículas de sus mochilas de protones (algo que Egon les dijo que jamás hicieran), creando un rayo de energía increíblemente poderoso que lo devuelve al portal. La explosión resultante destruye tanto a Gozer como el portal y salva la ciudad de Nueva York de la inminente destrucción... pero gran parte de ella queda cubierta de malvavisco fundido.

FIRE STATION HQ

The now iconic Ghostbusters headquarters is located in an old and dusty New York fire station. Situated in the 'rough part of town' and having seen better days, the station was not in the best condition when Egon, Peter and Ray went to see it. Both Peter and Egon hoped to use the condition of the building to their advantage and get it for a much lower price. However, Ray's instant love for the building and the functioning fireman's pole sealed the deal... this was to be their new home.

It housed not only the Ghostbusters team themselves, but the HQ was also where Ecto-1 was built and where the laser containment unit (home to many a captured ghost) was kept.

The Ghostbusters live, work, eat, sleep and relax in the fire station, just like the firefighters before them. The calm is only broken when Janine hits the alarm button and the bell starts ringing! "WE GOT ONE!!"

The guys spring into action, leaping out of bed, the shower, the lab or kitchen and sliding down the fireman's pole (Ray's favorite part) to their lockers. Here they can get their overalls on, jump into Ecto-1 and race off into action.

Once back at HQ with a freshly trapped ghost, it's off to the basement where the containment unit is housed. Here the traps are loaded into the laser containment grid ensuring the ghosts can never get out again... Unless somebody turns off the power.

LE QG DANS LA CASERNE DE POMPIERS

Le désormais célèbre QG de SOS Fantômes se trouve dans une vieille caserne de pompiers poussiéreuse de New York. Située dans un quartier « mal famé » et ayant connu des jours meilleurs, la caserne n'était pas très reluisante quand Egon, Peter et Ray allèrent la visiter. Peter et Egon espéraient tirer parti de l'état du bâtiment pour l'obtenir à un prix beaucoup plus bas. Mais le coup de foudre de Ray pour le bâtiment et le mâc de descente fonctionnel conclurent l'affaire... ils avaient trouvé leur nouvelle maison !

Le QG abrite l'équipe de SOS Fantômes, mais c'est aussi l'endroit où l'Ecto-1 fut construite et où se trouve l'unité de confinement laser (où sont retenus de nombreux fantômes capturés).

Les membres de SOS Fantômes vivent, travaillent, mangent, dorment et se détendent dans la caserne de pompiers, tout comme les pompiers avant eux. Le silence n'est brisé que lorsque Janine appuie sur le bouton d'alarme et que la cloche commence à sonner ! « ON A UN CLIENT ! »

Les membres de l'équipe s'empressent alors de sortir du lit, de la douche, du laboratoire ou de la cuisine et glissent sur le mâc de descente (la partie préférée de Ray) vers leurs casiers, où ils peuvent mettre leurs combinaisons, puis sauter dans l'Ecto-1 et passer à l'action.

De retour au QG avec un fantôme récemment piégé, ils partent vers la cave où est située l'unité de confinement. Les pièges sont chargés dans la grille de confinement, pour que les fantômes ne puissent plus jamais sortir. Sauf si quelqu'un l'éteint...

BASE DE LA ESTACIÓN DE BOMBEROS

La hoy emblemática base de los Cazafantasmas se encuentra en una antigua estación de bomberos neoyorquina abandonada. Situada en la «parte mala de la ciudad», ha visto pasar sus mejores años y no está en las mejores condiciones cuando Egon, Peter y Ray van a verla. Peter y Egon esperan aprovechar el mal estado de la construcción para conseguirlo por un precio muy inferior. Sin embargo, el instantáneo amor de Ray por el edificio y el poste de bomberos cierran el acuerdo. El lugar se convertiría así en su nuevo hogar.

No sólo cobijaría a los Cazafantasmas, sino que sería testigo también del nacimiento del Ecto-1 y la unidad de contención láser (hogar de muchos fantasmas capturados).

Como los Cazafantasmas viven, trabajan, comen, duermen y se relajan en la estación de bomberos, como lo hacían antes los propios bomberos. ¡La calma se rompe sólo cuando Janine presiona el botón de alarma y la campana comienza a sonar! «¡TENEMOS A UNO!»

Los chicos entran en acción saltando de la cama o saliendo de la ducha, el laboratorio o la cocina y bajando por el poste de bomberos (la parte favorita de Ray) hasta sus taquillas. Entonces se ponen los protectores, suben al Ecto-1 y salen a toda velocidad.

De vuelta en la base con un fantasma recién capturado, bajan al sótano, donde se encuentra la unidad de contención. Allí cargan las trampas en la red de contención láser, que garantiza que los fantasmas no puedan escapar... a menos que alguien interrumpa el suministro eléctrico.
