WE'RE MAKING OUR PACKAGING MORE SUSTAINABLE

We're transitioning from single-use plastic to paper-based packaging. As we progress, you may find a mix of paper and plastic in our boxes.

NOUS RENDONS NOS EMBALLAGES PLUS DURABLES

Nous passons des emballages en plastique à usage unique aux emballages à base de papier. Durant la transition, vous pourriez trouver un mélange de papier et de plastique dans nos boîtes.

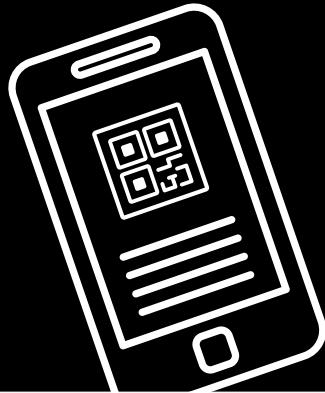

QUEREMOS HACER MÁS SUSTENTABLES NUESTROS MATERIALES DE EMBALAJE

Estamos cambiando las bolsas de plástico desechables por bolsas con base de papel. Conforme avanzamos en este propósito, puedes encontrar una mezcla de papel y de plástico en nuestras cajas.

THE SECRETS OF THE BATCAVE™

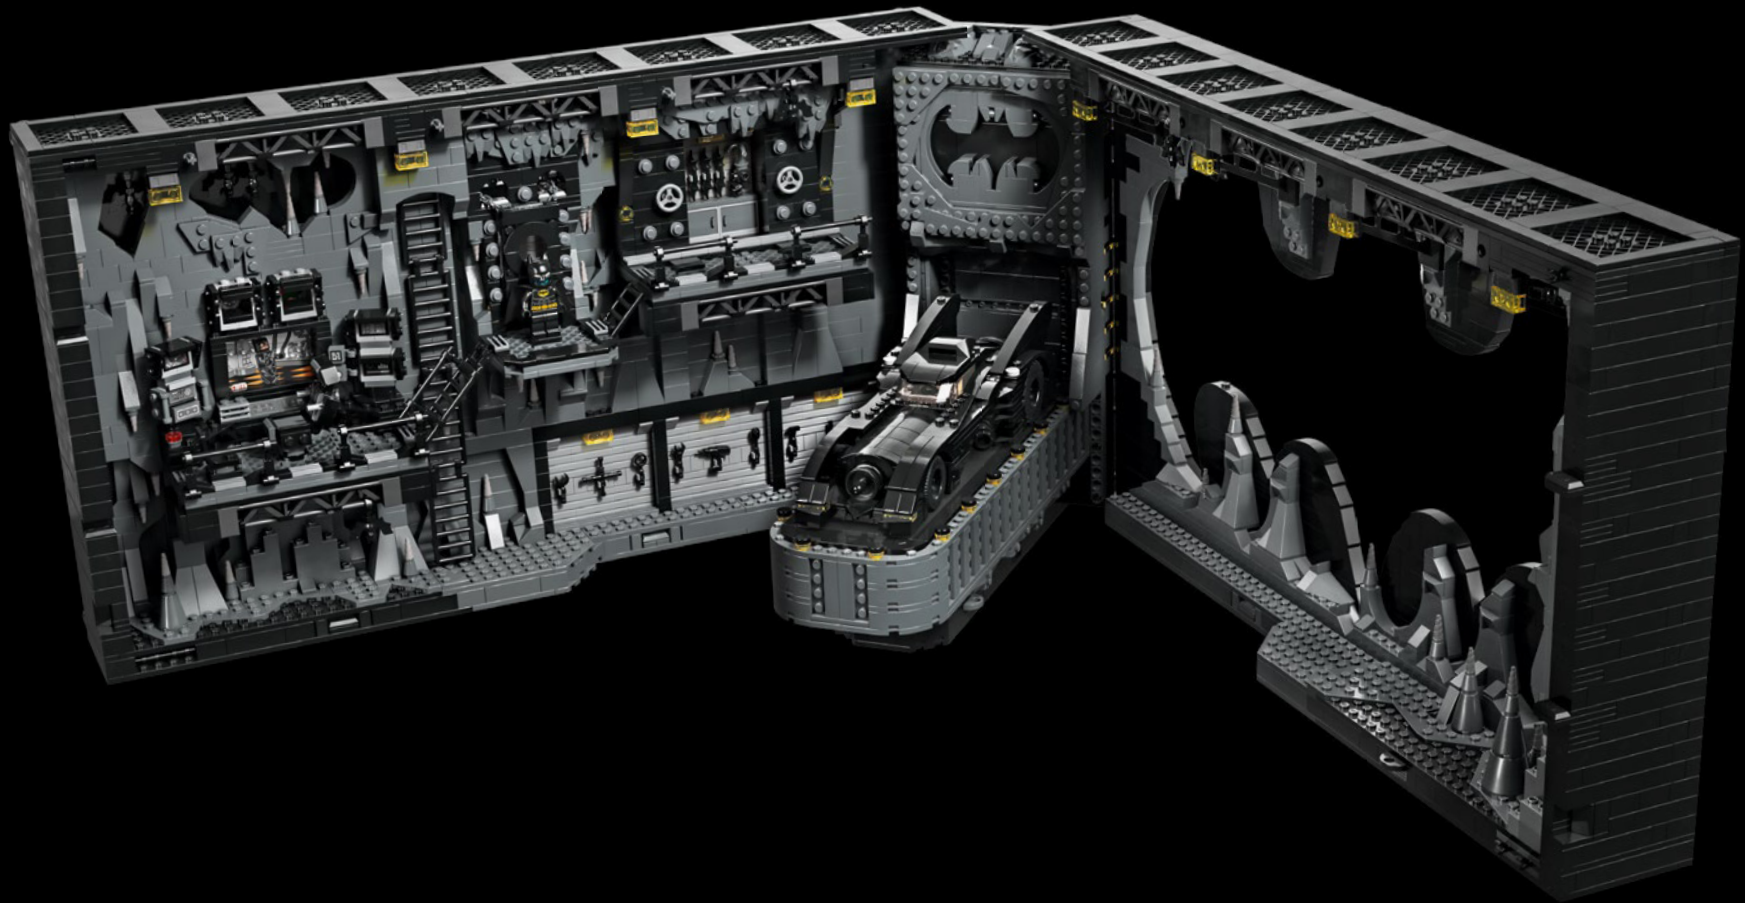

The Shadow Box, an elegant and versatile hybrid between a traditional picture frame and a display case, is an endlessly creative medium for displaying your treasured mementos. It wraps your collectibles in a certain ambiance, and the depth effect elevates them to a unique work of art. It seemed only fitting that the first LEGO® Shadow Box model envelops the atmosphere, and reveals the secrets, of the Batcave™; the legendary lair of a Super Hero who operates in the shadows to protect GOTHAM CITY™.

LES SECRETS DE LA BATCAVE™

La boîte-cadre, ou Shadow Box, un hybride élégant et polyvalent entre un cadre photo traditionnel et une vitrine, est un moyen infiniment créatif d'exposer vos souvenirs les plus précieux. Elle enveloppe vos objets de collection dans une certaine ambiance, et l'effet de profondeur les élève à une œuvre d'art unique. Il semblait tout à fait approprié que le premier modèle LEGO® La boîte-cadre enveloppe l'atmosphère et révèle les secrets de la Batcave™, le repaire légendaire d'un superhéros qui opère dans l'ombre pour protéger GOTHAM CITY™.

LOS SECRETOS DE LA BATICUEVA

La Caja Sombria, un elegante y versátil híbrido entre un marco de fotos tradicional y un estuche de exhibición, es un medio infinitamente creativo para exponer tus recuerdos más preciados. Este particular estuche envuelve tus objetos de colección en un ambiente exclusivo y su efecto de profundidad los eleva a la categoría de obras de arte irrepitibles. Con tales antecedentes, resultaba natural que el modelo inaugural de la Caja Sombria LEGO® replicara la atmósfera y revelara los secretos de la Baticueva, la legendaria guarida de un superhéroe que opera desde las sombras para proteger CIUDAD GÓTICA.

FROM CONCEPT TO COMPLETION

Creating any new LEGO® set, big or small, requires a whole team of specialists working together across departments and functions to create the best building and play experience: model design, graphic design, building instructions and many more. Jesper C. Nielsen, LEGO DC Batman™ Creative Lead, had long had a concept idea for what he called 'a vertical Batcave™' for adult fans: an intricate diorama narrow enough to display on a shelf. Senior Model Designer Bjarke Lykke Madsen had worked on four previous LEGO Batcave models and was asked to explore if, and how, this idea might be executed in a viable set.

DE LA CONCEPTION À LA RÉALISATION

La création d'un nouvel ensemble LEGO®, grand ou petit, nécessite toute une équipe de spécialistes travaillant ensemble dans tous les départements et fonctions pour créer la meilleure expérience de construction et de jeu : conception de modèles, conception graphique, instructions de montage et bien d'autres. Jesper C. Nielsen, responsable créatif de LEGO DC Batman™ avait depuis longtemps une idée de concept pour ce qu'il appelait « une Batcave™ verticale » pour les amateurs adultes : un diorama complexe assez étroit pour être affiché sur une étagère. Le concepteur de modèles principal Bjarke Lykke Madsen avait travaillé sur quatre modèles LEGO Batcave précédents, et on lui a demandé d'explorer si, et comment, cette idée pourrait être exécutée dans un ensemble viable.

DEL CONCEPTO AL PRODUCTO TERMINADO

Para la creación de todos los nuevos sets LEGO® grandes y pequeños se requiere del trabajo coordinado de un equipo completo de especialistas en distintos departamentos y funciones (diseño de modelos, diseño gráfico, instrucciones de construcción, entre otros) para crear la mejor experiencia de construcción y juego. Jesper C. Nielsen, director creativo de LEGO DC Batman™, tuvo durante mucho tiempo una idea conceptual de lo que llamaba "una Batcueva vertical" para fans adultos: un intrincado diorama lo suficientemente estrecho como para exhibirlo en un estante. El modelista sénior Bjarke Lykke Madsen había trabajado en cuatro modelos anteriores de Batcuevas LEGO, y a él se le pidió que explorara si esta idea era viable para convertirla en un set.

FINDING INSPIRATION

Bjarke found inspiration in the Shadow Box format and *Batman Returns*™ movie (1992): "In *Batman Returns*, you see all these amazing design details and functions in the Batcave™. I had an idea that a Shadow Box could add a complementary artistic aspect to a LEGO® version of it. Jesper loved the idea and suggested that the front cover could include a Batman™ logo cut-out. We agreed the Batmobile™ should be a centerpiece of the Batcave, so I created the Batman logo cut-out to fit a minifigure-scale Batmobile. And that dictated the size of the model. Then I built the first prototype, including a platform for the Batmobile, workstations with computers, the vault for the Batsuit, the gadgets cabinet, etc."

TROUVER L'INSPIRATION

Bjarke a trouvé l'inspiration dans le format d'une boîte-cadre et le film *Le retour de Batman* (1992) : « Dans *Le retour de Batman*, vous voyez tous ces détails et fonctions de conception incroyables dans la Batcave™. J'ai pensé qu'une boîte-cadre pourrait ajouter un aspect artistique complémentaire à une version LEGO® de celle-ci. Jesper a adoré l'idée et a suggéré que la couverture avant pourrait inclure une découpe du logo Batman™. Nous étions d'accord pour que la Batmobile™ soit une pièce maîtresse de la Batcave, j'ai donc créé la découpe du logo Batman pour qu'elle s'adapte à une Batmobile à l'échelle d'une figurine. Et cela a déterminé la taille du modèle. Puis j'ai construit le prototype initial, qui comprenait une plateforme pour la Batmobile, des postes de travail avec des ordinateurs, la voûte de la Batsuit, l'armoire à gadgets, etc. »

LA BÚSQUEDA DE LA INSPIRACIÓN

Bjarke se inspiró en el formato de la Caja Sombria y en la película *Batman regresa* (1992). "En *Batman regresa*, puedes ver todos los increíbles detalles y funciones de la Batcueva. Tenía la idea de que una Caja Sombria podría aportarle un aspecto artístico complementario a una versión de esta hecha con bricks LEGO®. A Jesper le encantó la idea y sugirió que la cara frontal tuviera un recorte con la forma del logotipo de Batman™. Acordamos que el Batimóvil fuera la pieza central de la Batcueva, por lo que incorporé un recorte a imagen del logotipo de Batman de un tamaño compatible con un Batimóvil a escala de minifigura. Y fue eso lo que dictó el tamaño del modelo. Después, construí un primer prototipo que incluía una plataforma para el Batimóvil, estaciones de trabajo con computadoras, la bóveda para el Batitraje, el gabinete de artilugios, etc."

ASSEMBLING THE TEAM OF DESIGNER SUPERHEROES

Realizing just how big the model would be, Bjarke teamed up with fellow Model Designer Carter Luce Baldwin, who suggested a function to open the box to access the platforms. Together, the two designers built the second prototype, including the opening feature and improved the details and functions of the interior and platforms. Carter designed the main entrance, amplified by the imposing Batman™ logo. Bjarke incorporated a light brick inside the vault to create added dramatic effect and a function to switch images on the computer screens. To emphasize this function, Graphic Designer Daniel Lundin created detailed stickers for the computer screens.

RASSEMBLER UNE ÉQUIPE DE SUPERHÉROS DE LA CONCEPTION

Réalisant à quel point le modèle serait grand, Bjarke s'est associé à son collègue concepteur de modèles Carter Luce Baldwin, qui a suggéré une fonction pour ouvrir la boîte afin d'accéder aux plateformes. Ensemble, les deux concepteurs ont construit le deuxième prototype, y compris la fonction d'ouverture, et amélioré les détails et les fonctions de l'intérieur et des plateformes. Carter a conçu l'entrée principale, amplifiée par l'imposant logo Batman™. Bjarke a incorporé une brique légère à l'intérieur de la voûte pour créer un effet dramatique supplémentaire et une fonction pour changer les images sur les écrans d'ordinateur. Pour souligner cette fonction, le graphiste Daniel Lundin a créé des autocollants détaillés pour les écrans d'ordinateur.

FORMACIÓN DEL EQUIPO DE SUPERHÉROS EL DISEÑO

Al darse cuenta de lo grande que sería el modelo, Bjarke hizo equipo con su compañero modelista Carter Luce Baldwin, quien sugirió una función para abrir la caja y acceder a las plataformas. Juntos, los dos diseñadores construyeron un segundo prototipo que tenía una función de apertura y mejoras en los detalles y las funciones del interior y las plataformas. Carter diseñó la entrada principal, amplificada por el imponente logotipo de Batman™. Bjarke incorporó un brick con luz dentro de la bóveda para crear un efecto dramático adicional y una función para cambiar las imágenes de los monitores de las computadoras. Para enfatizar esta función, el diseñador gráfico Daniel Lundin creó detalladas calcomanías que se colocan en las pantallas.

PEAUFINER LES FONCTIONS ET LES PERSONNAGES

Dans les dernières étapes du développement, Adam Grabowski, concepteur de modèles principal, s'est joint à l'équipe pour aider à optimiser le modèle et à affiner le design de la Batmobile™ afin qu'il s'adapte à l'entrée principale. Christian Barnkob, coach principal en conception de modèles, et Connie Bork, spécialiste des instructions de montage, ont été consultés sur l'expérience globale de construction, tandis que le maître de conception Adam Corbally et le graphiste principal Ashwin Visser ont travaillé ensemble pour capturer et recréer les personnages principaux du film en figurines LEGO®.

AJUSTE FINO DE LAS FUNCIONES Y PERSONAJES

El modelista sénior Adam Grabowski se unió al equipo en las últimas etapas con el fin de ayudar a optimizar el modelo y ajustar el diseño del Batimóvil para hacerlo caber por la entrada principal. Se invitó a Christian Barnkob, orientador de modelos sénior, y Connie Bork, experta en instrucciones de construcción, a aportar sus opiniones sobre la experiencia de construcción en general. Mientras tanto, el maestro de diseño Adam Corbally y el diseñador gráfico sénior Ashwin Visser trabajaban en capturar y recrear los personajes principales de la película en formato de minifiguras LEGO®.

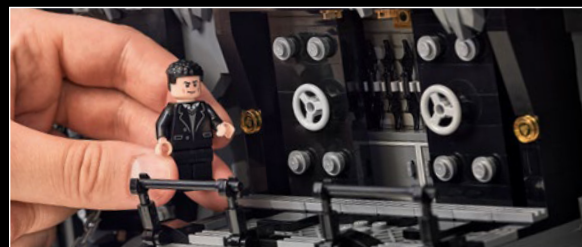

FINE-TUNING FUNCTIONS AND CHARACTERS

In the final stages of development, Senior Model Designer Adam Grabowski joined the team to help optimize the model and fine-tune the Batmobile™ design to fit through the main entrance. Senior Model Coach Christian Barnkob and Building Instruction Specialist Connie Bork were brought in to consult on the overall building experience, while Design Master Adam Corbally and Senior Graphic Designer Ashwin Visser worked together to capture and recreate the main movie characters as LEGO® minifigures.

LA BATMOBILE™

Il n'y a pas de Batcave™ sans Batmobile™. Tournez le levier du côté passager pour révéler les canons cachés et tirer, ouvrez le poste de pilotage pour y installer la figurine Batman™ (avec la cape souple), fixez l'élément flamme et regardez-le tourner lorsque vous conduisez la voiture.
